Mrs. Lee, Though Much Older,
Says She New Feels Like
"Sweet Sixteen."

ONCE SUFFERED MUCK

Gains Thirty-five Pounds—Took
Tanlac and Says She Broke
Up Her Ills.

"I weighed ninety pounds when I began taking Tanlac, and I now weigh 125 pounds," declared Mrs. Annie Lee, of 415 Pall Mall St., Columbia, in a statement she recently gave in endorsement of Tanlac, "The National Tonic," which she said she took a year ago and which restored her health.

One year after she took Tanlac Mrs. Lee gave the following endorsement of the remedy which gave her such remarkable results. Her statement follows:

"Before I took Tanlac I suffered from nervousness, and this trouble was very bad. Also, my system in general was run down and weakened. I was so nervous that I would jump if any one spoke when I was not expecting it or if any one knocked on the door. I had no appetite at all, and really I did not eat as much as a cat.

"My strength had almost left me and I could hardly walk across the floor. I was so weak and nervous. I suffered awfully with headaches and it seemed that there was nothing that would stop them. I could not sleep at all hardly and a few minutes after I would get to sleep I would jump and be wide awake. There was very little rest for me at night. In general I felt badly all the time.

"I bought Tanlac because I had read so much about it, and I took four bottles. That was a year ago, and I feel as well now as when I quit taking Tanlac. I was a well woman when the fourth bottle was gone, so great was the results Tanlac gave me.

"The Tanlac helped me so much that I feel like I was sixteen years of age now, though I am much older than that. I weighed ninety pounds when I began taking Tanlac, but I now weigh 125 pounds (a gain of 35 pounds) or more. The Tanlac quieted my nerves and

EVERYONE SHOULD DRINK GLASS
OF WATER TO CLEAN KIDNEYS.

If Your Back Hurts or Bladder
Bothers You Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with cold water and kidneyco which removes the body's urinous waste and stimulate them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from your druggist about one dozen 5 grain kidneyco tablets, take one tablet before each meal and at bedtime with a glass of water for a few days and your kidneys will act fine. This famous remedy is made from perfectly harmless ingredients and acts quickly, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Kidneyco is inexpensive, cannot injure, make no mistake, insist on kidneyco which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking and no doubt you will wonder what became of your kidney trouble and back-ache.—Adv.

strengthened them and built up my system. My nerves are fine now and I feel well.

"I am always glad to recommend Tanlac, and I do so because it is a remarkable medicine, and it did all I could want it to do for me. It just broke up my troubles. It has been a year since I took Tanlac and I feel as fine now as I did when I quit taking it."

Tanlac, the master medicine, is sold exclusively by J. F. Mackey, Lancaster; Peoples Drug & Grocery Co., Heath Springs; C. O. Floyd, Kershaw.—Adv.

MR. WYLIE REPLIES TO MAYOR JONES

(Continued from Page 1)

tities to large communities outside of the city limits.

I could indulge in sarcasm and inuendo like the mayor, but refrain from that manner of rejoinder, such not being to my mind, in good taste, nor instructive.

One of the grounds for the mayor's advocacy of the letting of the contract is that it might avoid litigation in case the city in the future attempts to increase the height of its dam or materially reduce the overflow of the stream's water to the mills reservoir. He urges further the "possibility of an injunction, or damage suit" and propounds the question "wouldn't it be rather generous in the mill authorities should they be willing to pay the city for water supply rather than litigate with it for depriving them of the reasonable use of the stream of water?" The same old argument we heard years ago, but in spite of it, the people went ahead and voted the bonds and established the present plant and there has not been, and in my judgment there will not be, any successful litigation by the mills against the city. We think this is but the old cry of "Wolf! Wolf!" when there is no wolf.

But seriously, the council should not think of entering into a contract by reason of the fear of some possible suit against the city in the future, or because of any obligation the city may under to Mr. Leroy Springs, these being considerations suggested by the mayor. Let the proposed contract be considered on its merits. Mr. Springs' claims on the generosity of the city for services rendered, so eulogistically set forth by Mayor Jones should not influence the council in this matter. They owe their first duty to the voters of the town who elected them. As a citizen and taxpayer we raise our voice against the consummation of the proposed contract with the Lancaster Cotton Mills. R. E. WYLIE.

Rev. E. T. Hodges will leave Monday night, via Charlotte, for the conference at Greenville, S. C.
